

Name: _____

Who Made That Winter Noise?

Put your story detective ears to the test!

Directions:

In *A Loud Winter's Nap*, Tortoise hears (and makes!) all kinds of noises.

Read each sound and match it to the animal from the story. After you match, write the animal's name to complete each sentence. One sound is missing its animal. See if you can figure out which animal made that sound and draw it in the empty box. If you are not sure, go back to the book and hunt for clues in the words and pictures.
