**Directions:**

1. These are cause and effect cards for *The Brain: All about Our Nervous System and More!*. Read the cards.
2. Cut out the cause and effect cards.
3. Mix the cards up then place them face down in front of you.
4. Turn two cards over. If the cause and effect are a match, place them on your sorting mat. If they don't match flip them back over.
5. Play until you find all the matches.
6. Hint: The cards with a square are cause cards. The cards with a circle are effect cards.

The brain sends messages to different parts of the body because

it is the control center of the body.

Brain damage affects specific tasks because

different brain regions are responsible for specific functions.

Learning new skills improves cognitive function because

the brain can learn and change throughout person's life.

Your brain is really what makes you, you because

it is the center of your thoughts, feelings, and memory.
