Name: _____

Directions:

The first part of the sentences below tell what happened (the effect) in the book, *The Brain: All about Our Nervous System and More!*. Complete each sentence by telling the cause.

The Brain: All about Our Nervous System and More!

Cause and Effect

The brain sends messages to different parts of the body because it is the control center of the body.

Brain damage affects specific tasks because different brain regions are responsible for specific functions.

Learning new skills improves cognitive function because the brain can learn and change throughout person's life.

Your brain is really what makes you, you because it is the center of your thoughts, feelings, and memory.

Reading Tip

Remember: The **cause** is **why** something happened. The **effect** is **what** happened.
