From Idea to Invention Timeline

Every invention has a process

Directions:

In *The Crayon Man*, Edwin Binney sees color everywhere. He just has one problem—children only have dusty, dull colors to draw with.

Create a timeline by telling what Edwin Binney's problem was, the experiments he performed to solve it, the success that he had, and how his success impacted children and artists.

Use your Crayola crayons to illustrate each step and bring color to your timeline!
