

Name: \_\_\_\_\_

Date: \_\_\_\_\_

**Directions:**

1. These are cause and effect cards for Weather. Read the cards.
2. Cut out the cause and effect cards.
3. Mix the cards up then place them face down in front of you.
4. Turn two cards over. If the cause and effect are a match, place them on your sorting mat. If they don't match flip them back over.
5. Play until you find all the matches.
6. Hint: The cards with a square are cause cards. The cards with a circle are effect cards.

Plants and animals are alive because

the sun's heat and light helps them grow.

Clouds are formed when

tiny water droplets group together.

Puddles on the sidewalk form when

rain falls from the sky.

Bright stripes of color show up in the sky when

a rainbow forms from sunlight and water.
