# How to Take Care of An Idea

Give your idea the care it needs to grow strong and shine bright!

## Directions:

In *What Do You Do With an Idea?*, the boy has an idea. He took care of it, believed in it, and watched it grow.

Now it's your turn to imagine an idea of your own and tell how you will take care of it.

**What is your idea about and why does it matter?**

**What inspired your idea?**

**What does your idea need?**

**How will you take care of your idea?**

**What will you do if someone doesn't understand your idea?**
