

Name: _____

How to Take Care of An Idea

Give your idea the care it needs to grow strong and shine bright!

Directions:

In *What Do You Do With an Idea?*, the boy has an idea. He took care of it, believed in it, and watched it grow.

Now it's your turn to imagine an idea of your own and tell how you will take care of it.

If you need help finding an idea, think about something you want to make, a way to help someone, or even a fun thing to try!

My idea is: _____

My idea needs: _____

I will take care of my idea

by: _____
